- 2012 Improved Teen Center Snacks
- 2013 Child Advocacy Program; Approved Pilot

Federal IMPACT Aid

What is Federal Impact Aid?

- Federal Impact Aid assists public school districts that lose tax revenues (income, sales, property tax) due to a Federal presence.
- Impact Aid helps reimburse school districts for the cost of educating Federally connected students – children whose parents work or live on Federal property. Impact Aid can be used to hire teachers, purchase textbooks and computers, transportation costs, utilities, military liaison program, and other services, etc.
- Impact Aid is used for all Hawaii public schools statewide.
- Average cost to educate a student in Hawaii public schools:
 - Per pupil = \$13,000
 - Federal Impact Aid reimbursement = \$2,000 or 15% of the total cost.
- During the 2013-14 school year Hawaii accounted for 28,000 Federally connected students and received more than \$41 million in Impact Aid.

How is Impact Aid Calculated?

- Each year, public school parents are asked to fill out a Federal Survey Card to determine whether their child is considered Federally connected.

Data collection challenges:

- 82% Parents do not know the street address of Federal property.
- 10% Parents refuse to complete the form.
- 5% Parents in Reserves/National Guard on active duty status do not want to submit a copy of Title 10 or activation orders.

More Information:

- Contact your schools, or visit [HawaiiPublicSchools.org](http://www.hawaiipublicschools.org) and check out our “Military Families” page.
